

Barrier Island Student Information

Hello! Soon you will be coming to Barrier Island. YAY! We can hardly wait. It is so much fun here. We hope you will remember your Barrier Island adventure for the rest of your life.

While you're here, you, your classmates, your teachers and chaperones, and the Barrier Island Staff will be a community, a group of people living and working together. Your biggest responsibility during your stay will be cooperation with others; you will need to think of how to help your group, not just yourself. Remember that even though you are at Barrier Island, you are still in school. Many of the same rules apply, so please be respectful of everyone around you.

Please be sure to check out the packing list and pack wisely! If it's not on the list, you probably won't need to bring it, this includes your technology!

You will get a name tag when you arrive which will have you cabin group, table group and field group on it.

1. **Cabin Group** - You will be living in a cabin with about 9 other people, including two adults. Everyone will need to cooperate and follow the rules.
2. **Table Group** - In the dining hall you will be sitting with your table group. There will be about 10 people at each table
3. **Field Group** - This is the best part! During the day, you will be going to different classes with your field group. Classes are lots of fun, because you get to do things like get muddy, catch fish, or hold a live animal. You will have about 10-15 people in each class. You will be taught by Barrier Island Naturalists, who are very interesting people. What we really want to show you is how interesting nature is.

We hope that you are excited about your upcoming trip, and we will see you soon!
